

Bali Prefab

Company profile

Bali Prefab specializes in custom high quality prefab wooden buildings and gazebos. Our skilled craftsman use a combination of machine tools and hand made techniques to produce precision luxury buildings and outdoor structures.

Bali Prefab homes only use the best grade of Solid wood: Merbau and Bangkirai , which is government certified from managed forest concessions. Our structures from the flooring, decking, ceiling to walls are all from kiln dried timber to insure years of worry free use. Only the best materials are used.

Bali Prefab's tropical buildings already exported to Tahiti (Four Seasons Hotel project), Hawaii, Spain, New Caledonia, Netherland, Japan, Reunion Island, and Italy (Sardejna Hotel) .

Architect: Dani Yulladi, info@bali-prefab.com, Cell: +628123922323

Bali Prefab is able to create designs to any owner's specification, working with either their in-house teams of talented architects, civil engineers and master-carpenters or with design experts from the prospective owner's home country. Once a final design is agreed, Bali Prefab also compiles a detailed client manual coded to facilitate final reconstruction at the final destination. As a further assistance the client also receives an education DVD and weekly construction progress reports including on-site photographs.

Bali Prefab always considering the long term relationship with all customers, that's why we make a special attention about the quality and services.
75% of Bali Prefab projects is repeat order from our loyal customer who is looking for great quality and services
